

HEADACHE & PAIN CENTER OF PALM BEACH

Coastal South Florida-Palm Beach County: 27-year Established Niche, Exclusively Outpatient, Neurology Practice seeking neurologist.

The practice is focused on neurodiagnostics/EMG, chronic pain conditions, headache treatment, and injury treatment, and is enhanced by non-patient-care opportunities. There is a mix of conventional insurance patients, community care VA patients, worker's compensation patients, and other injury patients. We perform consulting work as well for the VA and other referral entities. The practice has EMG, EEG, a TMS unit, and we also offer alternative treatments such as acupuncture. A part-time APRN sees patients as well. Excellent imaging resources and consulting specialists exist throughout this area. There are immediate opportunities for consulting work in medical-legal processes. We have loyal and hard-working staff with staying power. Seeking a qualified candidate with similar interests to work salaried with bonus. The position is ideal for a neurologist with headache, TBI, pain, and/or EMG training/experience, or for a general neurologist with similar interests. A mid-career neurologist who wants to make a lifestyle change (no hospital call, all outpatient) would also be an excellent candidate. This practice provides an option to work part-time and still make a good living. For the right candidate, there is also an opportunity to buy-in or purchase the practice outright.

The location is suburban with big-city cultural opportunities a short drive away; all imaginable Florida outdoor activities are available locally. Local communities range from laid-back beachy towns to country club lifestyles and family-friendly neighborhoods. International airport is 15-20 minutes away, Miami less than 90 minutes' drive, Orlando/Disney just over 2 hours drive, and the Bahamas are 70 miles by boat. There is no state income tax in Florida.
