

Stroke Neurologist | Private Practice Autonomy | Treasure Coast FL

Join Interventional Neuro Associates (INA), a premier, physician-led private practice providing neurovascular and neurointerventional care. We are seeking a Vascular Neurologist to join a dynamic, collaborative team.

Over the last decade, we have grown to include coverage of multiple hospitals. We continue to expand and are searching for physicians eager to join our team.

Location: HCA Lawnwood, Fort Pierce - Treasure Coast FL

Qualifications:

- Current medical license and board certification
- Completion of Vascular Neurology fellowship.
- Ability to work both independently and collaboratively within a fast-paced environment
- Commitment to providing high-quality, patient-centered care

Responsibilities:

- Inpatient stroke consultation
- Coordination with interventional neurologists for emergent and elective patients
- Acute stroke call coverage (primarily day shift, with 1 in 4 rotation for night shift telemedicine call)
- Opportunities to participate in QI initiatives and research projects

Why Join INA? We prioritize provider efficiency and work-life balance. You will focus on patient care while we handle the logistics.

- Quality of Life: Flexible scheduling - 1 in 4 telemedicine night call with weeks consisting otherwise of primarily day shift coverage
- Established: 10+ years of growth and expanding coverage
- Clinical Support: Dedicated internal APP support to assist with rounding, consults, and discharge planning.
- Compensation Model: flexibility with employment vs 1099 arrangement, competitive rates

Interested? Apply via the portal or if you prefer, email your CV and availability for a 30 minute screening call to lserviano@intneuro.org to speak with our Clinical Director.
